	<i>Special Wastes</i>			<i>Yard Trash</i>			<i>Process Fuels</i>			<i>C &amp; D Debris</i>			<i>White Goods</i>			<i>Tires</i>		

1 Yard waste Process fuel can count towards no more than one half of the recycling goal for each county.

2 The unadjusted recycling rate for the ten counties with process fuel may be high if some of the fuel was derived from paper waste, a material not included in this group.

3 Process fuel is composed of yard, wood and paper waste used in process boilers. The tonnage collected is accounted for in these material categories.
